H.H. the Maharaja of Mysore. Bangalore

To

Veterinary Capt. H.T. Pease. F.R.C. V.S. C.I.E.

Principal Veterinary College. Lahore.

Sir,

I have the honor to inform you that owing to the loss of some elephants and cattle belonging to the State from glandular swellings and the unsatisfactory results obtained from local investigation of the cases in question the Government of His Highness the Maharaja of Mysore is anxious to have a Veterinary Officer belonging to the State taught Bacteriology.

The Officer selected for this is one Mr N. Narasimiengar who passed out as a Veterinary Surgeon from the Bombay Veterinary College about 10 years ago.

The Durbar would be greatly obliged if you will kindly intimate whether you can arrange for the admission of the above Officer into the Lahore College, in order that he may study under you and become a scientific expert in Bacteriology.

If you can permit this kindly also intimate when this Officer should attend.

All expenses connected with his instruction will, of course, be borne by this Government.

I have the honor to be,

Sirm

Your most obedient Servant.

R G Jones Lieut. Col.

Military Assistant.

Enclosure :

To

THE Leiutenant-Colonel R.G.Jones, I.A.

Military Assistant to the Govt:,

H.H. the Maharaja of Mysore,

Bangalore.

SIR,

In reply to your letter No. 2340 dated 23rd January 1905, I regret to inform you that at present we are not in a position to train a man as a scientific expert in Bacteriology as we have not the means at our disposal for the purpose.

2. I have forwarded your letter to the Inspecto General of the Civil Veterinary Department, Meerut, who may perhaps be able to assist you in the matter.

I have the honor to be,

Sir,

Your most obedient servant,

Henry Pease Major,

Principal Punjab Veterinary College.

SECTION Miscellaneous
FILE No. 625-04
SERIAL No. 6

Proceedings of the Government of His Highness the Maharaja of Mysore.

Read:-

Letter No. 317 dated the 25th November 1904 from Senior Surgeon and Sanitary Commissioner with the Government of His Highness the Maharaja of Mysore requesting that a competent Veterinary Surgeon be placed in the Mysore District to investigate cases of glandular swellings among cattle.

2. Letter from the same officer, No. 410 dated the 29th Decem-ber 1904, forwarding copy of a letter from the Military Assistant and stating that he agrees with that officer in the opinion that application should be made for the loan of a competent Veterinary Surgeon from the Civil Veterinary Department Madras, to investigate the cause of and indicate the treatment for such deseases and that Mr. Narsimiangar, Veterinary Surgeon may become an excellent scientific veterinarian if necessary facilities are afforded to him.

3. Note dated the 9th March 1905, by the Military Assistant, submitting correspondence between him and the Principal of the Veterinary College, Lahore and Inspector General Civil Veterinary Department, Meerut.

4. Note dated the 20th March 1905 by the Senior Surgeon and Sanitary Commissioner.

Order thereon No. R. 9515-17 / 7+ 3-04-40 En file
Dated Bangalore the 4th of April 1905.

In the last of the communications read above, the Senior Surgeon suggests that, in the absence of a Veterinary establish-ment in India where Veterinary Officers can be perfected by a year's study, the only thing left to be done is to give Mr. Narasimiangar a three months' course in Bacteriological technique under Dr. Srinivasa Rao and then let him continue in the Laboratory working in ~~the~~ research methods under Dr. Srinivas Rao's guidance; that thereafter he might be trusted to collect

material for Bacteriological investigation from cattle &c. and work their identity under Dr. Srinivasa Rao and that after 12 months at this work, he should be provided with a small Laboratory of his own. These proposals commend themselves to Govt. and they may be carried out.

2. The Senior Surgeon is requested to issue instructions accordingly.

For Secretary.
